

The Council, through its District Education Authorities (DEAs), may provide for the transportation of students to and from school, subject to available funding.

Each DEA that provides bussing services for students is responsible for establishing guidelines such as:

- dates bussing service begins and ends
- bus routes and stops
- student behaviour expectations and consequences
- bussing fees

Each DEA that provides bussing service must ensure motor vehicle standard requirements for safety standards, school bus inspection, and driver qualifications are followed.

Families choosing to live at Buffalo Junction are responsible for transporting their children to school at their own expense.
